YOU ARE PERFECTLY
ON ROUTE WITH US

IN THIS WAY YOU BENEFIT FROM A COOPERATION WITH US

Founded in 2005 as a proprietorship in Bangalore, the company has developed itself further, and became a private limited company in 2019. It had started as a car rental company, afterwards it began with the passenger transportation with minivans and now it has also passenger transportation with coaches - a service provider, which has adapted itself continuously to its customer needs.

CONTINUOUS EFFORTS TO RENEW THE FLEET

From owning 2 vehicles in 2005, we have increased our fleet gradually in the following years, and now own around 65 vehicles. The company has a policy to renew its fleet, once every 4 years of the acquisition of vehicles. We took delivery of 40 new vehicles in 2019 and have taken delivery of one additional Coach and two SUVs in the first quarter of 2020. Keeping in mind the best interests of our customers, the company has a policy not to purchase any second-hand vehicles.
